➤ Copper Line

➤ Galvanized Line

➤ Plastic/PVC Line

Please respond, Very Important!

PLEASE RETURN AS SOON AS POSSIBLE

Drop Box located on High Street or mail to PO Box 352 Linden IN 47955

The Town of Linden is responsible for completing a full overview of the water service lines from the water main to the customer house in 2024. This is a rule and regulation enforced by the EPA with every Public Water System [PWS] to battle the Lead and Copper Rule that has been implemented.

This means without your participation we will be required to go door to door to identify what your line is coming into your house. If that can't be done then we will be required to dig on your side of the meter and on our side of the meter to determine what kind of material your service line is made of.
